Summary

- Solid foundation in programming languages: HTML, CSS, JavaScript, Java, Python, C#.
- Completed a Software Developer Internship at Intellectual Technology Inc, contributing to the development of a Vue.js web app.
- Practical experience with technologies such as Mock Service Worker, Axios/REST API, and Azure DevOps.
- Hands-on experience in resolving critical bugs and implementing solutions during the internship.
- Collaborated with cross-functional teams to deliver effective software solutions.

Education

Purdue University, Fort Wayne, IN — May 2024
Bachelor of Science in Computer Science
Minor in Information Systems and Mathematics

Relevant Experience

Intellectual Technology Inc, Fort Wayne, IN — May 2023 – July 2023
Software Developer Intern

- The team and I created a web app for ITI's internal tool that was developed in Vue.js
- Gained extensive experience in Mock Service Worker, Axios/REST API, Pinia, and Vue SFCs.
- Fixed a bug regarding the web app's state for the logged in user by implementing a Pinia Plugin API.
- Gained Azure DevOps experience during the internship
- Collaborated with various software developers and UI/UX designers to develop the web app based on a Figma Diagram

CDW, Vernon Hills, IL — May 2022 – July 2022
IT Configuration Technician

- Installed and configured hardware and software on a high volume of computers, printers, and other products for customers daily.
- Had to troubleshoot and diagnose problems with computer systems, including hardware and software and peripheral equipment.
- Needed to perform any additional duties assigned by management
